Plaintiff

Civil No:

V.

The Gran Telescopio Canarias "GTC",
Defendant

Complaint

Comes now the Plaintiff, Jonathan Lee Riches©, in pro-se, moves this court under 42 USC 1983 and TRO Restraining order. I seek $5 million dollars for Invasion of Privacy. I'm at FCI Williamsburg in Solitary Confinement. This Telescope is watching me. I got cameras and Film on me 24 hours a day. This is unconstitutional. I eat my morning meal, and the Lens is up close. I can't take a shower in private. Defendant is watching my thoughts, they are taking the film and selling on Myspace. I'm used For experiments in Solitary confinement practices in developing Nations. The North Koreans are making ½ my cell the DMZ Line, and the other half has writers Guild Strike workers. I take middle ground because I'm a center republican. My constitutional rights are also violated because I never recieved a ballot to vote Fred Thompson, who spoke in Iowa and said he will eliminate NASA's Budget. I'm for it, because then the Defendant and any unknown Telescopes CAN'T invade my privacy. This is civil rights violation
